RE: BioConnection Lending Lab Program

Dear Dr. Berke,

My school will receive a BioConnection Gel Electrophoresis Equipment Module (The "Equipment") during the 2007-2008 school year. The responsible teacher for our school is _____.

This letter will confirm my knowledge of participation in the program and receipt of the Equipment and confirm responsibility for the safety, safe and appropriate use (such are being limited, in any event, to perform experiment(s) for which instructors have been trained in a CURE/BioConnection Educational Workshop), security and care of the Equipment. I acknowledge that my school may be held financially responsible to CURE for any Equipment that is damaged or missing with a value of over \$50.00.

I understand a receipt and checklist is included with the module and must be signed by the visit contact person (teacher) both at drop-off and pick-up of the Equipment. There is no charge for borrowing this equipment or for the supplies.

I may contact you at 203-777-8536 or e-mail sberke@curenet.org if I have any questions or concerns.
